Professional Summary

Dedicated Computer Science student with a strong foundation in C#, C++, Java, and HTML. Experienced in building software solutions and developing web applications, with a keen eye for detail and efficiency. Passionate about problem-solving and coding, I am seeking an internship or junior developer role where I can apply my skills, collaborate with a dynamic team, and contribute to impactful software projects.

Technical Skills

- **Programming Languages:** Java, Swift, JavaScript, Python, C#, C++, PHP
- **Mobile Development:** Android (Java), iOS (Swift)
- **Web Technologies:** HTML, CSS
- **Databases:** MySQL, SQLite
- **Tools & Technologies:** GitHub, Xcode, Android Studio, IntelliJ IDEA, Visual Studio, Visual Studio Code

Education

DEC in Computer Science Programming

LaSalle College

Montreal, Quebec

Expected Graduation: May 2025

- **Relevant Coursework:** Mobile Application Development, Web Programming, Database Systems, Operating Systems

Projects

Kids Game

Mar – Apr 2024

PHP, HTML, CSS, MySQL

Collaborated with a team to design an interactive website game for kids. The game uses a system of lives whenever the user chooses the wrong answer and collects this data. Multiple messages are shown based on the user's interaction.

DineWise

Oct – Dec 2024

Java

Collaborated with a team to develop an interactive mobile application that helps users choose where to eat based on food preferences and location. The app collects user selections and provides tailored recommendations. Multiple messages and feedback are displayed based on user interactions.

Languages

- **English:** Fluent
- **French:** Intermediate
- **Tagalog:** Fluent
